

Hot Air Balloon Rescue

A hot air balloon is falling, it's out of fuel to power the heater and will soon crash. With the help of the player the balloon will either land securely or fall to the death of its passengers. Depending on how well the player will control the hot air balloon.

Objective: Landing the hot air balloon safely and keeping its contents and passengers

Assets: Background, hot air balloon

Extras: Obstacles like trees – to make the game more difficult, an instant death or lower points.
